About Harmovest Capital

About the Company

Harmovest Capital serves clients across Asia, South America, Europe, and the Middle East, with a presence in over 100 countries worldwide. Our global reach, combined with trust and support from partners and clients, positions us as a leader in online CFD trading.

We are committed to providing tailored financial solutions to both institutional and retail investors. With advanced technology, innovative products, and strict risk management, Harmovest Capital empowers clients to achieve their financial goals and create long-term value.

Backed by strong R&D capabilities, we continuously enhance our platforms and services, offering global settlement solutions and risk control systems to meet evolving market needs. Our cutting-edge technology allows us to stay ahead of competitors and deliver brokerage services to banks, institutions, retail traders, and professional investors alike.
Trading Platforms & Instruments

Clients can trade on award-winning platforms such as MT4, MT5, and customized social platforms, accessing CFDs on over 250 instruments, including: Forex, Cryptocurrencies, Indices, Stocks, Commodities, and more

Expanding services and technology to keep clients ahead.

Risk Warning

Trading Contracts for Difference (CFDs), foreign exchange (Forex), cryptocurrencies, commodities, indices, and other financial instruments involves a high level of risk and may not be suitable for all investors. Leverage can work both for and against you, and it is possible to lose more than your initial investment.

Before deciding to trade with Harmovest Capital, you should carefully consider your investment objectives, level of experience, and risk appetite. You should not invest money that you cannot afford to lose. Past performance is not indicative of future results.

CFDs are complex instruments and carry a high risk of losing money rapidly due to leverage. Market volatility, economic events, and changes in liquidity may significantly impact prices and trading conditions. Harmovest Capital does not guarantee profits or protection from losses.

Trading on margin involves additional risks, including margin calls and automatic liquidation of positions. In extreme market conditions, stop-loss orders may not be effective, and losses may exceed expected levels.

Information provided by Harmovest Capital, whether on this website, trading platforms, or through educational materials, is for general information purposes only and does not constitute investment advice, financial advice, trading advice, or any other form of recommendation. You are solely responsible for your trading decisions.

If you do not fully understand the risks involved, you should seek independent professional advice before trading.

Thank You

Harmovest Capital.
